Vaccine Information

The Health Department received its first allotment of the COVID vaccine yesterday. Due to limited supplies, and in accordance with federal and state recommendations, the administration of this vaccine is being prioritized to health care providers with the greatest chance of providing direct care to COVID patients and the general public. (ie. doctors, nurses, ems personnel etc.; also known as Phase 1-A) Vaccinations of individuals that meet these criteria have begun in Beaufort County.

Please continue to monitor Beaufort County's Health Department webpage and social media sites for information / announcements pertaining to our transition to the next phase of vaccinations (1-B). Group 1-B will include the following:

- People of all ages with comorbid and underlying conditions that put them at significantly higher risk
- Older adults living in congregate or overcrowded settings

Beaufort County's Health Department has also compiled a library of information pertaining to COVID vaccines. This information will be kept current, and can be found by using the link below or by visiting the their webpage.

NC Community Spread Map (Updated: 12/18)

North Carolina health officials are utilizing a county alert system to pinpoint counties with the highest levels of COVID-19 spread. This new map uses metrics informed by the White House Coronavirus Task Force and North Carolina's key metrics to categorize counties into three tiers

- Yellow: Significant community spread
- Orange: Substantial community spread
- Red: Critical community spread

Health officials are using a mix of criteria to determine what tier is assigned to a county. According to the state, a county must meet the threshold of case rate for that tier and meet the threshold for either percent positive or hospital impact in that county.

Counties that do not meet criteria for orange or red tier are categorized as being in the yellow tier and should continue to be vigilant to prevent further spread of [COVID-19](#).

This map of North Carolina below shows which counties are in what tiers.

NC Counties by Tier: Data from December 5 through December 18, 2020

Significant

There is significant community spread.

These counties should continue to be vigilant to prevent further spread of COVID-19, but they do not meet orange or red criteria

Substantial

There is substantial community spread.

These counties have a case rate that is between 101-200 new cases per capita in 14 days with at least 21 cases in 14 days.

The percent positive date is between 8% and 10%, or there is a moderate impact on county hospital(s).

Critical

There is critical community spread.

These counties have a case rate that is greater than 200 new cases per capita in 14 days with at least 42 cases in 14 days.

The percent positive date is greater than 10%, or there is a high impact on county hospital(s).

Re-Opening Timeline / Guidelines

Governor Cooper has announced that North Carolina will move to a modified “Stay at Home Early Closure Order” beginning at 5pm Friday, December 11th. (Executive Order 181). This new order will institute a statewide curfew and restrictions upon movement of persons between the hours of 10pm and 5am daily, with the following exceptions:

- 1) Travel to or from a place of work when a worker's presence is required by the worker's employer;

2. Travel for work purposes;
3. Performing work at the workplace or other location directed by the employer when the worker's presence is required by the worker's employer;
4. Travel to obtain groceries, take-out food, medical care, fuel, health care supplies, or social services;
5. Travel from a business that closed at or after 10:00 PM;
6. Travel to a business that will open at or after 5:00 AM;
7. Travel to take care of a family member, friend, or pet in another household;
8. Travel necessary for purposes of personal safety;
9. Travel into or out of the State;
10. Travel required by law enforcement or court order; and
11. Using or providing shared transportation (including without limitation taxicabs, ride shares, buses, trains, airplanes, and travel to airports, train stations, or bus stations)

In addition, this new order will require some retailers / businesses to stop alcohol sales at 9pm, and close between the hours of 10p and 5a.

A copy of today's new Executive Order has been attached to today's email, and can be viewed by visiting the following link: <https://files.nc.gov/governor/documents/files/EO181-Modified-Stay-at-Home-Early-Closure-Order.pdf>

“Check My Symptoms”

NCDHHS has created a “Check My Symptoms” tool that will help you check your symptoms online and determine if you will be recommended to be tested for COVID-19. After you enter your symptoms, if it is recommended that you get tested, you will receive a list of nearby testing sites via email or text. This is an informational tool to help you determine if you may need to be tested; however it is not a physician order. Testing sites may require their own screening. The “Check My Symptoms” tool can be accessed using the following link.

We have created a resource page that can accessed at:

<https://co.beaufort.nc.us/departments/human-services/public-health/2019-coronavirus-covid-19>.

This resource page contains guidance for businesses, long term care facilities, families, and more.

We are here to offer support and answer any questions or concerns. We are encouraging all community partners to share accurate information and promote it within your businesses, communities, and elsewhere. Beaufort County's website and Facebook page are great ways to stay up to date on accurate information.
