

# Severe Weather Threat Wednesday

## OVERVIEW

Showers and scattered thunderstorms will develop ahead of an approaching cold front Wednesday. Several of these storms could become strong to severe.

**TIMING**

- Late morning through late afternoon. Severe threat diminishes after 6 PM.

**LOCATION**

- The most likely area for severe weather is along and west of a line from Jacksonville to New Bern to Columbia.

**HAZARDS & IMPACTS**

- The strongest storms will bring the threat for strong wind gusts, though isolated large hail is also possible (up to quarter size).
